Packaging	80%	100%	Yes
LLDPE Plastic Liner	100%	100%	No
Vinyl Label	0%	0%	Yes
Stainless Steel	90%	100%	Yes

DID YOU KNOW THAT PURCHASING EX-CELL RECEPTACLES CONTRIBUTES TO CLOSED-LOOP RECYCLING?

Ex-Cell Kaiser receptacles, constructed of all metal, are 100% recyclable after their service life and, by being recycled an unlimited number of times, will never contribute to landfill waste.

This is something to be mindful of when considering the environmental impact of new receptacles.

ALL RECEPTACLES MANUFACTURED BY EX-CELL KAISER CONTRIBUTE TO CLOSED-LOOP RECYCLING!

METALS

Metals can be recycled an infinite number of times, therefore never contribute to landfill waste.

PLASTICS

Plastic can only be recycled once or twice before being cycled down due to degradation of material.

A "one-and-done" type of material that goes into landfills at the end of its service life.

Coliseum

RC-IND2 HMG/SS

RC-IND2 PBG/SS

NEW

The concept behind the design of the Coliseum was a desire to combine industrial elements (exposed fasteners, etc.) with a sleek, modern design. The finished product is a truly striking design that will compliment any décor.

Functional 68 gal. capacity (two 34 gal. liners) makes the unit ideal for high traffic areas. Two 12" color coded square openings on a hinged lid with soft close shocks and ghosted universal TRASH and RECYCLING graphics make waste stream identification simple.

Ellipse Collection

RGU-3645 BLK/HMGX

RGU-3645 MAL/BRZX

At a total capacity of 90 gal. (two 45 gal. liners), the Ellipse Collection is a two stream station ideal for high volume/high traffic applications. Locking front doors make serviceability easy and prevent unauthorized access while crisp white text and icons on the doors make it easy to identify the waste stream from a distance.

Durable aluminum canopy helps reduce rain and the elements while the top features two openings sized to match waste stream: 8" for Recyclables and 12" for Trash. Additional silk screened aluminum plates denoting TRASH and RECYCLABLES are included for lid application if desired.

Landscape Series

WR-34R DM BLACK, RC-34R DM CANS RBL (Shown with optional B-1022 brackets)

RC-34R DM CANS RBL

The Landscape Series of perforated outdoor receptacles includes two dome top units for trash or recycling. With laser cut graphics instead of body decals, the TRASH or RECYCLE units also feature retainer bands to hold liner bags in place and drainage holes to help extend the product life in harsh conditions. Pre drilled mounting holes along the back and an included in-ground mounting kit make installation easy. *Ex-Cell recommends that these units be post mounted using the B-1022 bracket (not included) or in-ground using the kit provided to ensure a long service life and limit scratches to the finish.

Root Item Number	Description
