

# SENTRY GUARD POST™

Attractive,  
versatile, visible.

The Ideal Temporary  
Bollard Solution for Vehicle and  
Pedestrian Management

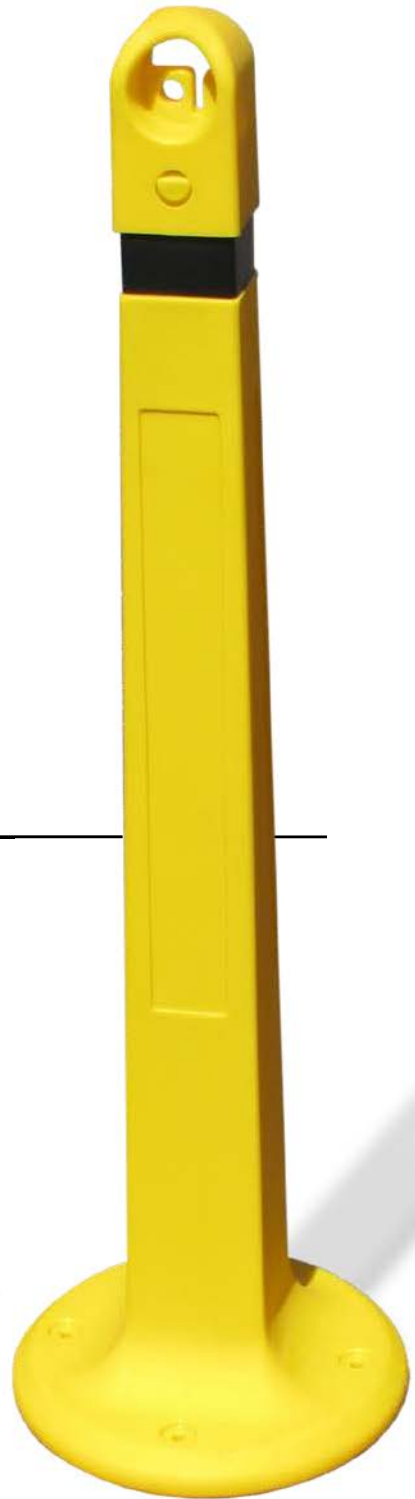

48" high, 14" tapered base made of durable,  
weather-resistant polyethylene

Quickly and easily works with plastic chain  
for versatile traffic configuration

Heavy-duty plastic that won't scratch vehicles

Integrated snap-on cap for internal storage  
and ballast options

# The alternative to ugly construction zone or permanent steel stanchions and chains

## ATTRACTIVE & VISIBLE

- 48" high, bright color that's easily seen by drivers
- Optional colors and finishes create the right environment for your facility
- Insets on each side provide reflective or messaging space

## VERSATILE

- Pass-through feature on cap accommodates plastic chain for a myriad of traffic pattern configurations
- 14" diameter, tapered base provides stability in small footprint
- Integrated snap-on cap for easy interior access and chain storage
- Recessed grommets on base allow for permanent mechanical attachment

## BUILT TO LAST

- Lightweight, durable polyethylene construction
- Resistant to moisture and weather
- Water-tight base and removable cap construction allows for ballasting with sand or water

Guard Post is available now from Sentry Protection Products and its many authorized distributors.
