

#1 YARD RAMP IN AMERICA

THE #1 CHOICE OF DOCK CREWS

- ✓ Easiest to Position
- ✓ Fastest Raise Time
- ✓ Greatest Stability

Choose Copperloy® Yard Ramps when you want the **best mobile solution** for ground level access to trucks, railcars or buildings. Instantly create a loading facility without new construction. Maximum capacities up to 35,000 lbs. Many models in stock and ready to ship next day.

Hydraulic Hand Pump

- ✓ Effortless for the operator to quickly adjust ramp height
- ✓ Raises 1/2" with each pump
- ✓ Raises 2.5 x faster than standard ramps
- ✓ Raises 20 x faster than caster wheel ramps
- ✓ Easy access outside the frame for adjustment & maintenance
- ✓ Handle is stored out of the way

Single Cylinder Design

- ✓ Raises evenly with one-cylinder system
- ✓ Requires fewer pumps to raise to the desired position

by JH INDUSTRIES, INC.

MORE FEATURES

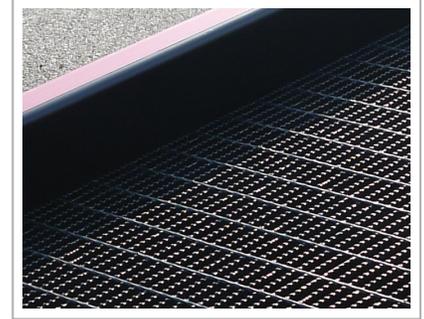

Low End Plate (36" Long)

- ✓ Approach plate is beveled from the underside to provide a smooth ground-level entry, eliminating jolts and bumps when forklifts travel

15" Lip Overlap

- ✓ Deep overlap of frame for secure connection
- ✓ 8' long safety chains and hooks for added safety & security

Deck Grating & Curb

- ✓ Electro-forged serrated steel grating
- ✓ Superior strength & traction
- ✓ 7" curb prevents accidental vehicle runoff

Positioning Sleeve (Standard on all steel models)

- ✓ 180 degree motion to maneuver in tight spaces
- ✓ Three point connection
- ✓ A durable means of positioning the ramp

Not intended for long-distance towing.

Solid/Pneumatic Tires (Standard on all steel models)

- ✓ Premium 18" tires, ideal for use in all applications
- ✓ Maintenance-free
- ✓ Performs well with regular or bumpy surfaces

8-Foot Level Off Section

- ✓ Provides easy access to trucks and loading docks alike
- ✓ Provides more room to get those hard to reach loads on the back of the truck
